Pelvic Ultrasound

Test Date: _____ Time: _____ Follow – up: _____ Time: _____

Your doctor has requested an ultrasound of your pelvis. Ultrasound is a safe and painless procedure that uses sound waves to "see" inside your body.

Before Your Exam

- Drink 32 ounces (four glasses) of water one hour before your examination time.
- If you are also having an ultrasound abdomen, please do not eat or drink for 8 hours before your exam. Water and medications are okay.
- Please leave your jewelry and valuables at home.

During Your Exam

- Upon arrival, you will be asked to change into a gown.
- Once in the examination room, the diagnostic medical sonographer will explain your procedure and answer any questions you may have.
- You will be positioned on your back on the exam table.
- The technologist will apply warm gel to the skin of your lower abdomen.
- A transducer, a small device similar to a microphone, is placed over the area being examined.
- These moving images may be viewed immediately, recorded or photographed for further study.
- Your exam will take approximately 30 minutes.

After Your Exam

Your study will be reviewed by an imaging physician and the results sent to your doctor. Your doctor will discuss these results with you.
