

HEMORRHOID BANDING

WHAT IS A HEMORRHOID BANDING?

It is a simple, painless and highly effective procedure that can be performed in less than a minute. We use the proprietary CRH O'Regan System which doesn't require surgery or recovery time.

HOW DOES THE BANDING WORK?

We use a small, gentle, single-use and disposable suction device to minimize discomfort and complications. A tiny rubber band is placed around the base of the hemorrhoid. The banded tissue shrinks and falls off within a day or so, usually without you noticing.

WILL I NEED TO TAKE TIME FROM WORK? IS THERE ANY PREPARATION REQUIRED?

Most patients are able to return to work the same day. No preparation is required for this procedure. Just make sure to wear comfortable clothing.
